

I don't want any more winters;
Please spring sooner!
Spring, come faster you,
May there be warmth until May.

Snowdrops are blooming
Grass grows in the ground, leaves flourish
Spring in my heart, in my body
Nature wakes up, and you are allowed to work.

The warm spring will end
A hot summer will begin,
Plus thirty-five degrees
Oh my god, what a heat!
We will send rain and thunder
The weather will be cool, but we will not go outside.

"What are you wondering? Come out in the rain!
It's okay if we get wet,"
What did I say, what's going on here?
Spring rain in my head.
